

## Positive

Students have been great so far.

My department supports me.

Relationships w/ students  
Relationships are a good focus for  
The year (2 comments)

Attendance seems to be going better

Room issues are being handled  
Admin. = flexible

New CP plan is in the works

Dept. heads meeting re-scheduling process for next year.  
In the P.E. area, kids seem to be cooperating and giving honest effort.

Enthusiasm and positive attitudes from students and staff alike.

Free doughnuts and coffee cards

Building relationship ideas

The custodial staff did a phenomenal job helping prep classrooms.

Made good connections with students

Classes are awesome; Love the students!

## Concerns

Social studies should have spoke regarding CP and explained things.

Don't make decisions and then ask us to discuss decisions that have already been made.

Get a CP plan in order.

Work on relationships as a STAFF

Confusion regarding attendance procedures

How are we building relationships?

Class size is too large

Too many operational items were not shared w/staff

Late schedule changes had a negative impact upon classroom dynamics.

More time spent on CP after a group worked 3 years is a slap in the face to the group and anyone asked to join a group would feel like "why bother?"

Need soap

Hearing about being 8 cells behind in AYP through the newspaper...

What's our plan? How are we as a staff going to solve this?

Need more time for all staff to collaborate re-upcoming year prior to school starting. District Day and Principal Day time not enough

Students don't have enough time for lunch

Textbooks still haven't arrived

Counselors worked very hard to accommodate students and scheduling.	Do not need staff meetings every Wednesday morning.
Later open house date.	Stuff was stolen from my room during summer cleaning
Classes were balanced much quicker	Classes are small and shrinking
Students	Upgrade Facility
Space for Math Dept. to meet	Lack of classroom teachers having to move and share rooms and not have a place to collaborate.
Using the projector and the document cam make teaching more meaningful. Students' work can be shown and everything I did previously is on paper.	Tardy Policy is totally ineffective. Tardy students not being held accountable.
Social studies dept. willing to jump on the CP issue to give us transition time to make CP more relevant	A feeling of rushing from one point to another
My classes are great	A long-term plan for keeping class size @ 28. (Science had to add a new class after school started
Staff voice is being heard! More input from the people!	Lunch lines & the time kids have to get lunch & eat.
Staff-esp. English staff has been so supportive in my first two weeks	My English classes are TOO BIG! 34 kinds in an English class.
I appreciate Gracie's positive attitude and presentation skills	Attendance—the way it's structured almost seems punitive to the staff.
Scheduling—very good! Flexible to students and teachers needs	Attendance is being re-worked, re-worked but still seems ineffective.
Department communication has been great.	The attendance e-mails were coercive and rude. This does not contribute to building relationships.

The staff & students have  
all been very welcoming  
to us "newbies"

Kids seem happy!

There is a positive "can  
do" attitude and  
atmosphere in the  
building

Great job counselors! I  
like how you ran kids  
through so fast, not just  
one day per grade.

Student focus

French fries are gone;  
glad to see students;  
happy to be working with  
my department

Schedule changes seemed  
to go smoothly

Organized ASB this year

My room was clean and  
ready for me on Aug. 1.

Ricardo balancing classes!  
Way to go!

My department supports  
me and the work I do.  
We support each other

Scheduling & balancing  
has gone more efficiently

My department supports  
me.

I am concerned about the  
attendance policy with teachers  
giving out slips for unexcused  
absences in relations to open  
campus for Jrs. &/or Srs.

Attendance bludgeon, "If we whip  
the galley slaves harder, they will  
row faster??"

We need to rework our  
supervisors' role and issue of how  
we treat students. The "police  
state" is not keeping us safer.

Too many students in this building

Too many meetings early on,  
teachers need to start to build  
relationships with students early.

Much longer lunch and break food  
lines

Listen to majority voice; commons  
too noisy

We as a staff voted unanimously  
to have CP a senior only project  
run CWP and you did not listen to  
us. You came back with another  
proposal.

Communication planning—get to  
the details that make the year  
begin smoothly

Too many kids—we need another  
high school

Felt disjointed and a little  
confused with several things—our  
evaluating administrator & CP

A consistent, purposeful  
attendance policy needs to be in  
place

Class sizes are the largest I have  
experienced in my 25 years at

WHS.

School looks great! Nice job custodians	Still waiting for information on interventions. What is the job description for Intervention Specialist? Why are we the only building that doesn't have a teacher or counselor in this role? Why don't we have any info in writing about what we have and how to access it?
My kids & classes—they are going well. I'm enjoying the kids I appreciate the mostly positive atmosphere I have experienced this year.	Scheduling of classes was unsettled lots of kids. Lost rooms re-assignments I would like to have had a chance to get into the swing of things before reprimands on taking attendance.
My department (English) supports me	My district/building is too cheap to do what is truly best for students.
ASB—great to have rep. council early—keep it up; announcements less repetitive that last year. I like the staff meeting starts on time and upbeat positive!	I want to be more organized and fluid in my teaching
#'s in classes adjust quickly	Nothing planned for CP yetL
My department truly supports itself and is very productive when given time	Out of state deadline to early All staff still means certs not all staff
Setting up expectations for group discussions i.e. no computers, cell phones etc.; creating safe environment to speak	Survival Skills course should not include a cost so all students who want can attend.
The Career Center has been busier than in past! Yahoooooo!	Cert. staff getting involved in classified business.

Great staff in offices working toward student success	Lack of communication from Admin. on process of the resource center computers hostile take over
Everyone has been friendly	I wish negative people i.e. staff & parents could be dealt with.
I love the energy of students and positive staff.	Attendance taking procedures & keeping students in school
I'm alive	Difficulty getting to meet with Admin. or supervisor for ongoing work.
Adding 2 new classes in music dept has gone smoothly.	Computer problems
This classified small group meeting.	Daughter sadL
I work with supportive people who care about students	Get scheduling done sooner! Too much moving
Beginning the year w/this meeting (LIT classified) is positive—it would be great to have more	Keep things simple
The kids are great this year	What is a suggested format for establishing relationships without it
Admin support is great.	Nav. 101 for 9-11th
I have great stuff going in my classroom.	Lack of communication with me as a new staff member I feel like I am not "in the loop"
Dot input was awesome! I had a voice!	Explain simply what we have to discuss w/background Invite feedback individually
Kept things simple.	Time-wasting, insulting presentations by administrators
Thank you to cwp for cp. Letting teachers make decisions.	
Thanks for social studies for taking cp. keep it simple.	
I like my group. It will be interesting.	

Attendance issues were  
cleared up quickly.

Quick and to the point  
short handouts.

Appreciate info of LIT  
direction.
